QR Code : What is that and what do I do with it??

It's a QR code (quick response code), is a type of 2D bar code that can be decoded using your cellphone!
 What's behind the magic square? Awesome downloads, competition links, wallpapers, games and more! All you need is:
 1. A mobile phone that has a camera & internet connectivity 2. A QR code reader (already installed in most new mobile ranges: I-phone/Blackberry etc.) Then it's as easy as 1,2...! Simply use your camera app, scan the bar code (include the entire code) and your mobile will take you straight to the online site! Pretty awesome!

Visit our NEW website:
www.primatoys.co.za

Available at selected Toy Stockists nationwide.
